

SizeGenetics Penis Extender on BBC TV

On Oct. 5, 2007, Jonathan Ross featured the SizeGenetics penis extender on BBC1.

Although the feature isn't exactly what you would call a serious review of natural penis enlargement (it is late night television, after all), it was a step in the right direction.

You can See The BBC Clip on SizeGenetic's Web site.

Have you seen penis enlargement in the media? Let us know.
