

## Penis Enlargement Takes Time

Before you read any further. . .

Ignore the advertisements. Ignore the spam. You can't add 4 inches in 4 weeks. That's because exercises don't work overnight. No matter what you exercise -- whether it's your muscles or your penis -- enlarging the body takes time, dedication, and hard work. Several men have added multiple cubic inches to their penis within the first few months. However, many men do not. If you want a bigger penis, this process will take time.
